

All Over Creation

My Year of Meats, Ruth Ozeki's delicious debut novel, won a devoted following and was hailed by critics as inventing a new genre: the eco-saga. Here, Ozeki takes us to the heart of the potato farming industry. Yumi Fuller is a Japanese-American prodigal daughter returning home to the Idaho potato farm she ran away from twenty-five years earlier. Then a freewheeling hippie chick, Yumi (a.k.a. Yummy) is now a fairly responsible parent and a professor. But can she possibly be prepared to face her dying father, her Alzheimer's-devastated mother, her former lover, and Cass, the best friend she left behind? As she grapples with her conflicted past and uncertain future, Yumi collides with a rollicking band of environmentalists who see her parents' potato farm as the ideal answer in their fight against genetic engineering. With a quirky cast of characters and a keen eye for the vicissitudes of corporate life, political resistance, youth culture, aging baby boomers, and globalization, as well as the beauty of seeds, roots, and all growing things, *All Over Creation* offers something for just about everyone.

In *All Over Creation*, Ruth Ozeki cross-breeds a narrative of personal growth with the politics of GM crops.
