

Bare Your Soul

Angelica Roses mom always told her that desperate times called for desperate measures. Walking into a strip club and asking for an audition certainly qualifies as desperate, but when her moms battle with cancer ends months before Angelica is due to start college, she doesnt feel like she has much choice. The moment Morgan Cadwell sees her on his stage, he knows shes the one woman who could make him break all the rules. Theres no way hes going to let Angelica dance for other men, so he hires her as his live-in personal assistant instead. Morgans offer lets Angelica keep her clothes on...but little does she know that, in the end, hell make her bare her soul instead. Warning: This book is about an alpha caveman and a sweet but fierce virgin heroine who fall ridiculously fast in insta-love. If youre okay with that, then enjoy!
