

## Browning: Poems (Everymans Library Pocket Poets)

Robert Browning and Elizabeth Barrett Browning are without parallel in the nineteenth century: celebrated poets, they became equally famous for their marriage. Still popular more than a century after their deaths, their poetry vividly reflects the unique nature of their relationship. This collection presents the Brownings work in the context of their lives: the early years and their initial friendship, their courtship and marriage, the fifteen happy years they spent living in Italy until Elizabeths death. Whether in short poems such as Elizabeths Hector in the Garden and Roberts Natural Magic, or in extracts from longer works such as Aurora Leigh and Pauline, the great themes they shared are all represented: love, marriage, illicit passion, England and Italy, childhood, religion, poetry, and nature. Elizabeths famous Sonnets from the Portuguese, based on their love affair, is included in its entirety. The poems are augmented with a generous selection of the marvelous letters the Brownings wrote to each other.
