

A Christmas Castle

What are you thinking about, Jack? Gloria looked at him, knowing his thoughts were miles away in time. Jack chuckled. I was thinking about the Christmas night I found that shooting star stuck in a snow bank. Gloria curiously raised an eyebrow. Excuse me? In this heartwarming novella, Christmas meets the butterfly effect when a young boy's glance at a shooting star produces surprising results through time. When Jack Mason was eight years old in 1966, he saw a shooting star on Christmas night. Then he tried to follow it, setting off a chain reaction that affected his life, and others, in ways he would only learn about eighty-two years later when he meets Gloria Grant at the Harbor View Retirement Home.
