

Originator: A Cassandra Kresnov Novel

Hope for the future in the hands of an enemy from the past ... Cassandra Kresnov must find the answers that could free her people or doom her family. A quarter of a million people die in the destruction of the moon Cresta. The League civil war is accelerating out of control, but projections indicate that as their technologically induced sociological dysfunction continues, all of humanity may face a similar fate. In the aftermath of Cresta's destruction, Sandy Kresnov discovers the alien Talee operative Cai in Tanusha, there to learn just how far the technologically-induced insanity has gone. The Talee have seen this before, and they are terrified of anything threatening a recurrence. Meanwhile, Sandy's old nemesis Renaldo Takewashi, the self-proclaimed father of synthetic intelligence, comes to the Federation seeking asylum. Takewashi may even have a cure previously unknown Talee technology implanted into a human child subject Sandy's little boy, Kiril. But it is exactly this technology that the Talee fear, and they will exterminate anyone caught using it. Now, Sandy must fight to save her family from a terrible new threat, but doing so may plunge humanity into another destructive war between humans, or worse, against the massively-advanced Talee. And what final secret are the Talee protecting about the origins of synthetic humans like Sandy that could either liberate Sandy's fellow synthetics from bondage or spell disaster for all humanity?
