Just a few generations ago, the planets five hundred inhabitants huddled together in the light and warmth of the Forests lantern trees, afraid to venture out into the cold darkness around them. Now, humanity has spread across Eden, and two kingdoms have emerged. Both are sustained by violence and dominated by men and both claim to be the favored children of Gela, the woman who came to Eden long ago on a boat that could cross the stars, and became the mother of them all. When young Starlight Brooking meets a handsome and powerful man from across Worldpool, she believes he will offer an outlet for her ambition and energy. But she has no inkling that she will become a stand-in for Gela herself, and wear Gelas fabled ring on her own finger that in this role, powerful and powerless all at once, she will try to change the course of Edens history.
