The last thing Lila needs in her busy life is another distraction. She just wants to graduate and become a successful lawyer, she can always concentrate on relationships later. How, then, did rock star Chase Gates worm his way into her life? His relentless pursuit of her somehow ended up with the two of them spending a passionate night together. But Chase is exactly the kind of man she needs to stay away from, and to help do that she agrees to go out with someone her father has picked out instead. Unfortunately, the only thing she can think about the whole time is the exciting and handsome rock star. Now, with her undergrad behind her, Lila has a choice to make - continue on with the life shes been planning forever, or throw caution to the wind and follow her heart instead. Part 2 of a 5 part series!
