

# The Mystery of the Big Bang Theory Solved Using Common Sense: A Minimal-Book of Maximum-Power written by the worlds least successful author

This minimal CreateSpace book is comparable to a ton of dynamite that is about to explode because it has a very short fuse. The scientists have always made you feel inferior by insisting that the big bang commencing universe was very complicated. The scientists have only told you about their version of an abstract universe. The real Universe must be simple. Astoundingly, Joe Fisher explains just how simple the real Universe is. Before the science, Fisher demonstrates his writing capability with samples of his literary fiction and comedy play writing. If you read this book, you will be amused. You will also be entertained. Above all, you will be freed from the mental shackles of the mad ideas of the mad scientists.
